

## Select the Best Positive Selection to Improve farm Saved Seed Potatoes:

### 1 - Trainers Manual, 2 - Farmers Field Aid

1 - Provides the technical background and training approach to teach farmers in developing countries to increase potato yields by improving the quality of farm saved seed potatoes. In 8 training modules a demonstration experiment compares current farmer practice with positive seed potato selection.

2 - Leaflet outlining the basic principle of positive seed potato selection and providing colour pictures of major potato diseases. Meant as a reference for farmers trained on positive seed potato selection and to promote informal farmer to farmer transfer of the technology.

## Biofuels for Transport: Global Potential and Implications for Energy and Agriculture

Earthscan/BMELV/FNR/GTZ

The world is on the verge of an unprecedented increase in the production and use of biofuels for transport. The combination of rising oil prices, issues of security, climate instability and pollution, deepening poverty in rural and agricultural areas, and a host of improved technologies, is propelling governments to enact powerful incentives for the use of these fuels, which in turn sparking investment.

## Geriatric Nutrition

Morley JE, Thomas DR (eds)

This book presents basic knowledge, current clinical practice, and novel ideas for geriatric nutrition; reviews nutritional status, assessment, and requirements in older people; provides specific data on the management of diabetes, obesity, depression, dementia, and cardiovascular disease; considers ethical and cultural issues; and offers prescriptions for enteral and parenteral nutrition. Exploring new ideas in normal, pathological, and optimal nutrition, Geriatric Nutrition ties basic research with clinical practice to further the understanding of nutrition in older persons.

## Clinical Cases in Dietetics

Pender F

Learning how to deal with actual cases and developing the ability to arrive at a reasoned clinical judgment are important parts of a student's training. This unique text presents a series of clinical cases of increasing complexity and range. Readers are taken through a structured way of thinking that facilitates clinical reasoning and the arrival of a justified treatment plan. Each case includes a commentary and opportunities for reflection on practice, and identifies key learning points.

## Developing Markets for Agrobiodiversity: Securing Livelihoods in Dryland Areas

Giuliani A

Reduced agrobiodiversity can leave communities highly vulnerable to changing climatic, economic and political pressures. This book, based on cutting edge research in Syria by Bioversity International (IPGRI), presents practical proposals for establishing markets and securing livelihoods in difficult dry land areas.
