

# State Budget Issues Conference

Yaounde, Cameroon, November 2-4, 2010

Help to Engineer an Upturn in the Economy and Ensure it Serves All

## **State Budgeting High Responsible Economic Growth Generation**

**Mobilisation all the way!** Please help pass this message on to people you know...

 **Transforming Use of Information, Communication and Technologies** The continuing resource base depletion, and urgent need to combat it, requires state budgeting that transforms uses to which information, communication and technologies are put.

[More.](#)

 **Ensuring Government Services Relevance, Delivery Effectiveness and Efficiency** Why spend scarce resources on things that are not needed or delivered, or are poorly executed? [More.](#)

 **Promoting Competition, Smart Rules, Responsive and Accountable Leadership** "When Paul Biya, President of the Republic of Cameroon, published his Communal Liberalism in 1987, many felt that Cameroon was beginning to look mature, particularly with regard to political and ideological attitudes towards government involvement in economic matters. [More.](#)

 **You Have the Power to Judge Intentions, Performance, and Reform** It is your inalienable right and freedom to judge our leadership intentions and performance, and hold it to account. [More.](#)

 **Obama Outlines Changes in US Global Development Policy** Wednesday September 22, at the United Nations Millennium Development Goals (MDGs) Review Summit, US President Barrack Obama outlined changes in US Global Development Policy saying ... [More.](#)
