Dear Friends!

Ten years after the Earth Summit in Rio de Janeiro world leaders will come together from 2-11 September 2002 in Johannesburg, South Africa, to a World Summit on Sustainable Development (WSSD). In Johannesburg governments, concerned citizens, UN organisations, multilateral financial institutions and others will make a critical and frank review of what has been achieved since Rio.

We, at the United Nations Environment Programme would like to contribute to this review by launching **a new edition of Young Action for the Future** shortly before WSSD. It is meant to be a reference book with success and on-going stories on sustainable development from youth groups around the world.

We invite all of you to take part and send us stories about the projects **YOUR** group has successfully undertaken!

How to do it:

- Write a text of not more than 3000 words.
- Describe the activities and aims of your organisation.
- Highlight a project which has successfully enhanced sustainable development or a project which is being implemented.
- Include photos, cartoons or anything else which illustrates your project and makes your article more interesting.
- Send the text by **31 December 2001** to:
