Feedback on:

Water Privatization in Buenos Aires

Local Agenda 21 in Rufisque

The Ilo Clean Air Project

Street food and income generation for poor households in Kinshasa

Environment & Urbanization

A twice yearly journal to encourage researchers, teachers, NGO staff and professionals from Latin America, Asia and Africa to write about their work, present their ideas, debate on issues and exchange information on their activities and publications. To ensure a widespread distribution, free subscriptions are available for NGOs and teaching/training institutions in Africa and in low and middle-income countries in Asia and Latin America that have difficulty in obtaining foreign exchange.

Environment and Urbanization is published by the Human Settlements Programme of the International Institute for Environment and Development (IIED) and the Instituto Internacional de Medio Ambiente y Desarrollo (IIED-América Latina). It is funded through the sale of subscriptions and back issues, with additional financial support from the Swedish International Development Cooperation Agency (Sida), Danish Cooperation for Environment and Development (DANCED) and the Department for International Development (DFID). It is the sister journal to *Medio Ambiente y Urbanización* published by IIED-América Latina. Although the two journals have similar editorial policies, they publish different articles with *Medio Ambiente y Urbanización* concentrating on Latin America and *Environment and Urbanization* covering all regions of the world, with a concentration on Africa, Asia and Latin America.
