Volume 3, N°33

Dear **BRIDGES** Readers,

We have enclosed a recent copy of ICTSD's **BRIDGES Weekly Trade News Digest** along with this issue of **BRIDGES Between Trade and Sustainable Development**, as an introduction to this useful on-line complement to the information contained in ICTSD's monthly review.

**BRIDGES Weekly Trade News Digest** has been in circulation since February 1997 as a leading electronic newsletter covering trade news from the perspective of sustainable development. It is a concise resource that enables readers to keep up with, and flag, key developments at the rapidly changing intersection of trade policy and sustainable development. It contains on average six to nine brief articles based on relevant international and national mainstream press as well as specialised sources. **BRIDGES Weekly Trade News Digest** also takes advantage of ICTSD's location in Geneva to share with its readers information on developments within the WTO, which are often not covered by the press. Each issue also contains a section on forthcoming events and recently-released resources.
